

PERFECT 2020

Rugged construction with flexible programming

PERFECT 2020 can be adapted to any existing time card and attendance system by selecting a programmed standard card format or by programming an individual card format.

The time recorder is programmable for summer/winter time change. It has an automatic calendar and a programmable column position.

Attractive analogue quartz clock with power reserve and automatic synchronisation.

Print format, card format, bell signal and ribbon colour are simply programmable through the keyboard and LED display.

The two colour-ribbon allows you to highlight registrations outside normal working hours. The ribbon cassette can be changed very easily.

Perfect 2020 can be delivered in desktop or wall mounted version.

The adjustable machine number can identify the location of the time registration.

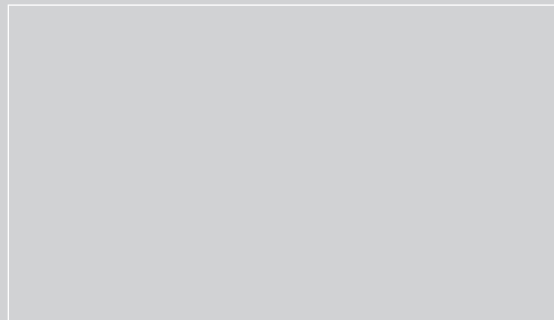

Options

- Battery back-up (up to 300 punches)
- Slave clock operation (12-60 V, max. 10 mA)
- Programming via serial cable
- Master clock function
